

Mask Defogging

It's as easy as 1 2 3

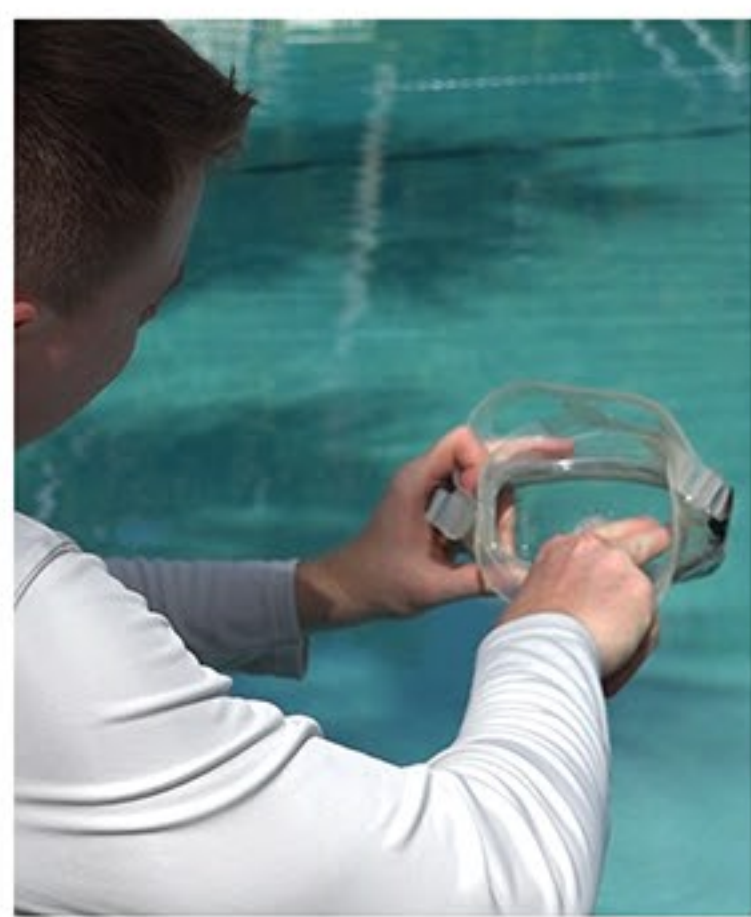

CLEAN & DRY THEN APPLY RINSE & TRY

CLEAN & DRY

1

Check to make sure the inside of your mask lens is both clean and dry. Do not dip mask in water before applying defog.

THEN APPLY

2

Read and follow the directions for the defog you will be using. Apply defog evenly to the entire inside surface of the lens.

RINSE & TRY

3

Rinse slightly after applying • Do not rinse the defog off. Avoid getting any water into the mask after this.

REMEMBER:

3 simple steps to make your mask ready to dive

CLEAN & DRY THEN APPLY RINSE & TRY
